

Behavioral Health Prescriber

Full-time/Part-time

Position Summary:

DotHouse Health is a diverse multidisciplinary health care and social service agency in Boston's Fields Corner Neighborhood. Our state-of-the-art facilities provide comprehensive clinical services such as Primary Care, Eye Care, Dental Care, Radiology/Mammography, Behavioral Health, and Laboratory Services. DotHouse Health provides over 120,000 visits per year to Adult, Pediatrics, and Family Medicine patients.

The Behavioral Health Department at DotHouse is comprised of a dozen full and part-time adult and child/adolescent therapists, 2 BH case managers (Spanish and Vietnamese), a social work internship program of 3 per year, a full-time BH Integration clinician, a substance abuse counselor and consultant for BH Integration, 2 nurse practitioners, a supervising and prescribing adult psychiatrist, and a child/adolescent psychiatrist and pediatrician. Our therapists provide direct care in English, Spanish, Vietnamese, and Portuguese Creole but also have a team of interpreters readily available. We are currently seeking an additional full-time or part-time prescriber to provide direct patient care services.

Education & Qualifications:

The ideal candidate must be an MD with a completed psychiatry residency or a nurse practitioner with an active license in the Commonwealth of Massachusetts. Experience working in an outpatient setting is preferred, bilingual candidates with comfort prescribing for children and adolescents is desirable, and we are an equal opportunity employer.

For consideration, please forward CV to:
